"On average, staged homes spend 73% less time on the market and earn more than 6% above asking price!"

STYLING MADE SIMPLE

Property styling has an emotional impact on buyers when viewing a home. That is why at All Things Home we focus on creating environments that draw people in with both style and comfort. Once payment is made and contract is signed, our property styling coordinator will be in touch with you, the Listing Agent. Our team are licensed Real Estate Brokers. As Brokers, we understand the importance of flexibility and accommodating time frames. With that said, we understand things can change and clients change their minds. Keeping that in mind we don't begin any property styling until payment has been received.
